

# TSA's Summer Travel List

- Please get to the airport early to account for increased passenger loads.

- Double check the contents of your pockets and carry-on baggage to ensure no prohibited items such as **lighters or firearms** were inadvertently packed.

- All fireworks contain explosive materials and are not permitted in checked or carry-on baggage.

- Firearms must be unloaded, placed in a locked, hard-sided container and properly declared to your airline.

- During screening please take laptops and video cameras (that require cassettes) out of their cases.

- Please ship or take valuable items with you in carry-on baggage. **DO NOT** pack fragile or valuable items in checked baggage.

- Checked baggage screening equipment may damage your film. Put undeveloped film in your carry-on baggage.

- Wearing footwear that can be easily removed helps speed you through the screening process. Screening may include X-ray inspection of your shoes.

- Closing overstuffed baggage can be difficult and may result in delays. **DO NOT** overpack bags.

- Lock your baggage using a TSA-accepted lock.

- Passengers selected for additional screening have the right to request it be done in a private location.
